Getloaded.com Teams With BOLT to Offer Fuel Tax & Fuel Management for Their Members

[Midlothian, VA] — **Getloaded.com**, premier Internet Load Board for the transportation industry, and **BOLT**, the integrated dispatch & tracking system for small to mid-size carriers, have announced their alliance to provide an affordable Fuel Tax & Fuel Management program to the trucking industry.

Powered by BOLT and offered by Getloaded.com, truckers will now have an easier way to track their fuel taxes. They will find simplified trip entry screens that can be customized to meet their individual mileage needs and will be able to have their IFTA forms automatically calculated and printed for easy filing.

Additional features of **Fuel Tax & Fuel Management** include:

- ✓ Simplifies what others make difficult
- ✓ Multiple data input options
- ✓ Advises where to purchase the lowest-priced diesel
- ✓ Data is secure and password protected
- ✓ Offers daily reports regarding tax status in each state
- ✓ At the touch of a button user can
 - Modify previously entered trip
 - Add trip entry in middle of previously entered data
 - Delete trip entry

About Getloaded.com:

Getloaded.com is the leading Internet Load Board and has been serving the transportation industry since 1999. Using a cutting edge computer platform that is user friendly, fast and secure, Getloaded.com is committed to providing instant access to trucks and freight.

About BOLT (Best OnLine Tracking):

BOLT, the integrated dispatch system for the 21st Century, lets a carrier with fewer than 500 trucks manage its operations at an affordable price. **BOLT** integrates dispatch, invoicing, driver settlement, fuel tax management/reporting, maintenance, log checking and truck/trailer tracking. It pulls all of a carrier's critical data together, giving them better control of their costs. **BOLT** is a business of the Robertson Group, headquartered in Nashville, TN.
