**BOLT Announces Automatic Posting to Getloaded.com**

*Now you can automatically post loads and trucks to your favorite load board!*

[Nashville, TN] — **BOLT**, the integrated dispatch & tracking software for small to mid-size carriers, has announced immediate availability of the capability to post loads and/or trucks automatically to **Getloaded.com**.

Both carriers and brokers will now have a simple way to immediately post both trucks and loads to **Getloaded.com** – the premier Internet Load Board for the transportation industry. All it takes is a click of a button from the dispatch screen of **BOLT** to post either a truck or a load - it's as simple as that! **BOLT** will track your trucks and loads to remove the posting once they are covered – automatically! You no longer have to worry about tracking this yourself.

**BOLT**, the integrated dispatch system for the 21st Century, lets a carrier with fewer than 500 trucks manage its operations at an affordable price. **BOLT** integrates dispatch, invoicing, driver settlement, fuel tax management/reporting, maintenance, log checking and truck/trailer tracking. It pulls all of your critical data together, giving you better control of your costs.

**About Getloaded.com:**

**Getloaded.com** is the leading Internet Load Board and has been serving the transportation industry since 1999. Using a cutting edge computer platform that is user friendly, fast and secure, Getloaded.com is committed to providing instant access to trucks and freight.

**About BOLT (Best OnLine Tracking)**

**BOLT** is the integrated dispatch software of choice for forward thinking carriers. **BOLT** is a business of the Robertson Group, headquartered in Nashville, TN. The company combines state-of-the-art technologies from across the U.S. and Canada with an extensive background in supply chain management and direct hands-on fleet ownership.
